

*Easy to install, no fastening, adhesives or special tools are needed. The tiles lie on top of the subfloor.*

*BERGO is tough and takes wear and tear without losing its attractive appearance.*

*Thanks to the perforated surface and the underneath design BERGO has an excellent drainage capability.*

*In case a major cleaning or repair job is required, BERGO can easily be removed by using the disassembly-tool.*

*Expansion strips will allow expansion of the floor material in varying temperature changes. Edge strips are suitable for installation at stairways.*

## Technical information

- Material:** Environmentally friendly recyclable UV-stabilised polypropylene.
- Option:** Flame retardant material.
- Size:** 302,1 x 302,1 x 13,7 mm.
- Packaging:** 5 m<sup>2</sup> = 55 pcs tiles per carton = 20,3 kg.  
Pre-assembled sections 4 x 3 tiles = 12 tiles,  
1 pallet = 75 sections = 81,8 m<sup>2</sup> = 334 kg.
- Standard Colours:** Green, Dark-blue, Light-blue a Silver-grey.
- Types:**
- A = Smooth surface
  - B = Surface with "knobs"

MADE IN SWEDEN

Pre-assembled sections  
1,2 x 0,9 m

Expansion strips and  
Expansion Cross-piece

Edge strips and  
Corner strips

Disassembly-tool

# BERGO MARINE TILE type EXCELLENCE

**Durable • Excellent drainage capability  
Low weight • Withstands heavy loads  
Minimal maintenance • Easy to install  
Attractive • Environmentally friendly**

## Advantages

Flooring is an entire science. When evaluating a deck covering for a vessel, you have to consider factors such as: Installation, appearance, maintenance, cleaning, sound absorbance, durability and removal.

BERGO Excellence is a deck covering which fulfils the requirements for floorings that are exposed to harsh weather, strong sunlight, rain, cold and ice.

BERGO offers a high performance level considering all the above factors. Fitting the floor yourself could not be easier, another big advantage.

By installing BERGO you protect the painted deck and prolong the intervals between expensive repainting significantly.

BERGO also has sound absorbing characteristics and it is not essential for the sub floor to be perfectly level prior installation.

BERGO offers excellent drainage capability due to the perforated pattern and the underneath design.

## Easy to install and move

BERGO is easy to install. Tapping a rubber mallet or similar over the protruding rings easily interlocks the tiles together.

NO fastening, special tools, glue or screws are needed. Use a jig- or circular-saw to cut the tiles for a perfect fit.

## Excellent drainage capability

BERGO allows water and moisture on the subfloor to flow freely, which means that you have a dry attractive appearance and the passengers will not bring in dirt onto the cabin carpets.

In this way you will save time cleaning the cabins, as well as reduce costs, because carpets need to be replaced less frequently.

## Disassembly-tool

BERGO is tough and takes wear and tear, without losing its attractive appearance. The ingenious design allows for the floor to be moved quickly. The floor can be taken apart by using the disassembly-tool in case a major cleaning job is required. In case one tile is damaged you can change an individual tile by using the replacement-tool.

## Accessories

- *Edge strips* – 300 x 55 mm, for a smart and safe finish.
- *Expansion strips* – 300 x 75 mm.
- *Expansion cross piece* – 75 x 75 mm.
- *Corner strips* – 75 x 75 mm.
- *Disassembly-tool and Replacement-tool.*
